A FULL COLOR LED DISPLAY BOARD

The 17' x 7' all-weather, mobile, full color display board can be mounted or flown in just about any location. We will provide an operator. The board can display any image — perfect for sponsor logos or ads you provide. We can also place ads or logos in the extra room on top and sides.

With 20mm pitch, the board has twice the clarity of most other portable units. Two boards are available for use in viewing situations that require multiple locations for one ring and can also be used individually.

Ryegate has been providing electronic scoreboards to equestrian events since the late 1990's.
